

PRESS RELEASE
November 14, 2011

DACIA LODGY GLACE – TECHNICAL SPECIFICATION

CHASSIS

Type: tubular steel

Suspension: double wishbones; adjustable Öhlins integrated springs/damper units

ENGINE

Type: VQ 30 developed from the Renault Nissan Alliance 24-valve V6

Position: mid-rear

Cubic capacity (cc): 2,987

Bore x stroke (mm): 93 x 73.3

Maximum power (kW EEC / hp): 257 / 355

Peak power at rpm: 7,500

Maximum torque Nm CEE: 360

Peak torque at rpm: 5,500

TRANSMISSION

Type: four-wheel drive and steering

Gearbox: SADEV 6-speed sequential

Differentials: limited slip front and rear

BRAKES

Front: 300mm Ø steel discs

Rear: 265mm Ø steel discs

Calipers: Beringer 4 pot

WHEELS

Rims: 5.5" x 16" magnesium

Tyres: Continental Ice Racing Contact 3

DIMENSIONS/WEIGHT

Length: 4,001mm

Width: 1,900mm

Front/rear track: 1,690mm

Wheelbase: 2,500mm

Weight: 950kg

Fuel tank: 25 litres

STEERING

Type: 4 wheel steering

Hydraulic power steering

Cam-adjustable rear steering

THE TROPHEE ANDROS

The Trophée Andros was first organised in 1990. The technical regulations specify that the 'body shell' of the race vehicle should reflect that of a car that is either in production or about to be launched. Most technical components of the car are defined by the regulations: tubular chassis, four-wheel drive and steering, 3 litre V6 engine developing around 340hp, six-speed gearbox and Continental Ice Racing Contact 3 tyres.

The races:

A round of the Trophée Andros consists of two days of racing. On the first day, timed practice (no points awarded) followed by two qualifying rounds. The cars (four per race) compete over four timed laps. The cumulative time over the four laps determines the winner of the round. Only the best of the two heats counts. The performance demonstrated during these heats fix an order that counts for 80% of the points, and forms the grid for the finals. On the second day, the finals are races with ten cars over ten laps and count for 20% of the points.

2011/2012 Trophée Andros calendar:

December 3-4: Val Thorens

December 9-10: Andorra

December 16-17: L'Alpe d'Huez

January 6-7: Isola 2000

January 13-14: Lans en Vercors

January 20-21: Saint Dié des Vosges

January 27-28: Superfinal Clermont/Superbesse
